polokbanik7@gmail.com

Mirpur, Dhaka, Bangladesh

polok-portfolio.netlify.app

SUMMARY

Motivated Frontend Developer with a strong foundation in HTML, CSS, and JavaScript, currently advancing skills through hands-on projects and continuous learning. Skilled in building responsive and interactive interfaces using React.js, Next.js, Tailwind CSS, and TypeScript. Highly enthusiastic to contribute as a Frontend Developer Intern, collaborate with a professional team, and gain practical experience while further strengthening technical abilities.

PROJECTS

Portfolio Website →

Developed a responsive personal portfolio using **ReactJS**, showcasing **projects**, skills, and contact details with a clean and **user-friendly design**. Focused on performance, modern UI, and **accessibility across devices**.

LINK → polok-portfolio.netlify.app

Animated Agency Website →

A responsive agency website built **using Next.js**. Focused on **clean UI**, **reusable components**, and **smooth animations** powered by **GSAP** and **Lenis**, along with dynamic property listings to showcase available properties effectively.

LINK → animated-agency-website-sigma.vercel.app

Amynta Insurance Website →

Built a **pixel-perfect** website using **Next.js**, **TypeScript**, and **Tailwind CSS** with **dynamic data rendering**, **responsive layouts**, and a custom UI design focused on **clean structure** and modern user experience.

LINK → amynta-insurance-company-website.vercel

Task Website-Landing-Page →

Built a modern clean UI landing page **using Next.js**, featuring **smooth animations** with **Framer Motion** and a **fully responsive** dark UI. Focused on **clean component structure**, performance optimization, and **dynamic styling using clsx**.

LINK → saas-dark-landing-page.netlify.app/

Factora-Website-Landing-Page→

A fully responsive landing page **using React** and **Tailwind CSS**. Focused on modern, **clean UI** with **component-based structure** and **pixel-perfect design**.
